Yacht Club.

The appointment of Richard Rummell. Bensonhurst Yacht Club, to the position of official handicapper by the Yacht Racing Association of Gravesend Bay gave a decided boom to the sport of yachting among the clubs below the Narrows. When yachting started after the war this summer no one had the position. As a result the craft in the various regattast to date zailed without any time allowance. Yesterday things were different. Mr. Rummell took charge of the percentage class, and although his figures still are guesswork the yachts were divided into classes and things moved along in a shipshape manner.

It was the turn of the Atlantic Yacht Club to hold the regatta, and the sailboat races formed one of the most important features of the two days' victory of clebration. Unfortunately the wind was the wind came at the start the start was twice around a was light, and as the craft were com-

celebration. Unfortunately the wind was light, and as the craft were compelled to buck a head tide for the greater part of the course late finishes were the rule.

Ethel, a large sloop which belongs to S. Christiansen, was the only yacht of the first division to race. The craft therefore had a sailover. In the second division the winner on corrected time was the old Lipton cup racer Loafer. Eight yachts made up the division, the largest class that has raced on Gravesend Hay this year. In the third division the prize on both actual and corrected time was taken by Alcyon.

Helsky, was the leader, defeating Ogden Reid's Lepa by 4 minutes and 2 seconds, and of the Long Island Sound schoon-

NEW ROCHELLE, N. Y., July 5 .- Comodore C. A. Marsland and the members of the New Rochelle Yacht Club were well repaid to-day. During the war the organization, in the face of considerable opposition on the part of some of its mbers and vachtsmen in other clubs

on both actual and corrected time was laken by Aleyon.

Although it crossed too soon and had to be recalled, Mouse was the winner among the knockabouts. As the wind came the regatta committee, made up of Samuel L. Finlay, chairman; Lieut John R. Brophy and Handicapper Ruminel, was able to send the craft over a 7-3 miles made up of a run, a reach and a beat. The summary:
